Fred Taylor

Planning and Zoning Report

DATE: September 5, 2019

Planning Grant/Management team- The management team met again on August 19 to develop a survey to identify people’s opinion on the town’s needs and wants. The survey asks if the person is a resident of the town, and their views on Windsor’s capacity in recreation, infrastructure, development opportunities, and offers the chance to give any additional insights. The initial surveys will be conducted through mailing with the water bills and at the County Fair.

102 Maple Ln- New contact information has been provided by the Isle of Wight Sheriff’s Office. The Planning and Zoning Department will work with the County’s Code Enforcement Officers to ensure that the owner rectifies the nuisance property.
